

SESE TOUR 2022

Southern European Systems Engineering Tour

Systems Engineering for a sustainable World

9-11 May, 2022

SAVE THE DATE !

To all Systems Engineering practitioners, students, and enthusiasts,

We are pleased to announce the return of our annual SESE Tour in virtual - and partially hybrid - mode. Five INCOSE chapters from Southern Europe (Belgium, France, Italy, Spain, and Switzerland) invite to exchange on the following theme:

“Systems Engineering for a Sustainable World”

The objective is to promote Systems Engineering among industrial and academic practitioners, interested parties, and to strengthen the links between the chapters.

Over the course of successive half-days, each chapter will propose, a specific programme with presentations, demonstrations and discussions on issues related to Systems Engineering for the chosen theme.

Program:

			Mode
9 th May	Morning	Opening session	Virtual
	Afternoon	AEIS, Spanish Chapter	Virtual
10 th May	Morning	AISE, Italian Chapter	Hybrid (shared with SSSE) *
	Afternoon	SSSE, Swiss Chapter	Hybrid (shared with AISE) *
11 th May	Morning	AFIS, French Chapter	Virtual
	Afternoon	Belgium Chapter	Virtual

* Please note that the Italian and Swiss chapters are planning a shared hybrid event near their border on Tuesday.

Place:

**Istituto Tecnico Statale
Leonardo Da Vinci**

Via Aldo Moro 13 - BORGOMANERO (NO)

On-Site tickets are limited, so register early! More details will be announced shortly on the [AISE](http://www.aise.org) and [SSSE](http://www.ssse.org) websites.

Participation in the SESE Tour 2022 is **free** but registration is **compulsory**. You can pre-register for one or more sessions at the event website: <http://sesetour.afis.fr/>

We invite you to regularly consult it to benefit from regular updates (program, any useful information).

Thank you and see you soon!
